EDUCATION

IHRD College Of Applied Science   **Kerala**
Bachelor's Degree in Computer Science   *2023*

St. Dominic Savio College   **Lucknow**
Higher Secondary   *2020*

St. Dominic Savio College   **Lucknow**
High School   *2018*

Profile

Detail-oriented professional with a cross-functional background in end-to-end front-end development. Excited about new opportunities in web development, I aim to leverage coding expertise, creative sensibilities, and dedication. Thriving on collaboration to transform ideas into visually appealing and functional web solutions, I bring skills in Node.js, SaaS, RESTful APIs, and design patterns, ensuring seamless implementation and troubleshooting. Effective teamwork, time management, and communication skills contribute to successful outcomes. Experienced with React for building dynamic and responsive applications.

Experience

MERN Stack Intern
Luminar Technolabs

- Developed proficiency in HTML, CSS, JavaScript, React, Redux and Material UI through comprehensive training sessions.
- Enhancing skills in full-stack development, including Express, Node.js, and MongoDB, through hands-on project work.
- Creating and implementing multiple web development projects, demonstrating strong problem-solving abilities and teamwork.
- Currently working on full-stack development projects, gaining a solid understanding of modern web development technologies and practices.

Projects

Netflix Clone

- Developed Netflix Clone web application replicating Netflix's functionality
- Provided users access to movies and series details sourced from the TMDB API, focusing on an end-to-end user-friendly interface, ensuring cross-browser compatibility.
- Implemented user authentication and database management using Firebase for login, registration, and data storage
- Built using HTML, CSS, JavaScript, Material UI and the React library

Nike Clone

- Developed a Nike Clone web application replicating the design and functionality of Nike's website
- Implemented a responsive user interface to ensure compatibility across various devices
- Utilized the React library and React Slick package for building the application and creating interactive, slick carousels, ensuring cross-browser compatibility.
- Focused on creating a clean and modern design with HTML, CSS, and JavaScript

SKILLS & COMPETENCIES

Skills: HTML, CSS, JavaScript, Jquery, SASS, Bootstrap, Team, React.js, Python, C, C++, Babel , Git
